Jr. C. of C. to Sponsor Woman's Organization

It was a pleasant surprise to us on returning to the office Tuesday forenoon to find Doctor and Mrs. M. C. McMurray, of Paris, Mo., awaiting our return. We have known these good people practically all our life and never knew better. Mrs. McMurray was Miss Agnes Asmuth and in our youth spent many pleasant Sundays at the home of her mother, the best fried chicken cooker anywhere.

The resignation of Sherwood Smith as County Clerk of Scott County was mailed to Governor Park a few days ago. The County Democratic Committee in a called meeting unanimously endorsed H. C. Watkins, Jr., deputy clerk, as his successor, and have forwarded same to Governor Stark.

At this time it is hard to estimate the cost of holding back the flood waters in Mississippi County, but at least the amount will average \$25,000 per day. Some think all the land was not worth the cost, but to us the moral effect and the thought of helping a neighbor is worth more than money. You know hardly a day passes but what some one risks their life to save the life of another. This is the something worth considering. There is always some one ready to jump into the water to attempt to save a life and frequently goes down to death. These men on the levee work risked their lives every minute to save the property of others and they were willing to do so. Maybe God stood by and watched over them. It is a worthwhile thought.

Seeing the slim-faced King of England as sent over by wireless, with the top-heavy crown, sets us to wondering if we look too heavy when we are dressed up in our gold braid in the Colonels uniform and heavy cap.

We are receiving some commencement cards from graduates of the Sikeston High School, but we do not know whether the invitations were for last year or for the next year. Besides we think we had a bad deal given us on these invitations and are not acknowledging any of them, last year, this year or next, whatever year they be intended for.

From Wyat east to the River much plowing and planting has already begun. About Wyat to Charleston cotton was up to a good stand as well as some corn fields. Fair weather is needed to cultivate and break the crust caused by heavy rains. Near the Thad Snow place is one of the finest and rankest growth of clover to be found anywhere, and the alfalfa fields thereabouts were heavy. The hills of Kentucky from Wyclif to Clinton looked mighty pretty and green, with plenty of sheep and pigs in the pastures. Cotton planting seemed to be the order of the day over there. The river from Cairo to Wyclif was high and rough. All this Wednesday morning when the editor again accompanied Lon Nall to Clinton in quest of country hams which abound in that city. Twelve more were brought back to Sikeston to satisfy our own families and friends.

The coming Tuesday is the special election for both the Library and the Recreation Park. The ballot is so prepared that each proposition is voted on separately. Both propositions should carry as both will add prestige to our city. Besides there will be no additional tax levy to retire the bonds due.

We were shocked to read the following in the Great Religious Daily of Cape Girardeau which leads us to believe maybe they were bordering on to an assignment sheet "Refined middle-aged widow would like to meet refined gentleman companion. Address M. M., Missourian." Anyway, we would have to see her first.

The only complimentary thing that we have been able to say about Old Jim Reed in twenty years is now that he is after one Dubinsky, the Russian Communist, who is trying to force the Nelly Don dress factory in Kansas City to join the C. I. O. If they could tie the two together, throw them over a clothes line and let them fight it out, it would be all right here.

PARTH HALL BUILDING SOLD TO DR. KENDIG

The building on Front Street known as the Catholic Parish Hall was sold on Wednesday to Dr. H. M. Kendig, who will have the structure razed and stored for use in future building. Workmen started removing the plumbing and heating plant, Thursday morning.

Mrs. C. E. Bratton, Bill and Ward Bratton will go to Simpson, Ill., Sunday to attend a reunion of the Kerley family. The reunion will be held at Rock Spring, Ill.

HOME EC. DEPT. SERVES BOARD AND MUSIC DEPT.

Because of the interest manifest by many young women of this city, members of the Junior Chamber of Commerce will meet with the young women at the Del Rey Hotel tonight (Thursday) to organize a Junior Women's Chamber of Commerce. This will be the second such organization in the United States, the other one being in Poplar Bluff.

At the meeting tonight the ladies will be presented with a constitution and by laws by the young men's organization. An advisory board, to serve as an intermediary between the two organizations and to advise the young women on any problems which may arise, has been named by President Wm. Sidwell, and are as follows: Dr. H. A. Dunaway, chairman, Kemper Bruton and Frank Miller. There will be thirty-five charter members of the new organization.

ARRESTED BY DACE FOR RECKLESS DRIVING

On Thursday afternoon of this week from 2:30 until 3:30 the Home Economics Department served a tea for the entire high school music department and the faculty. There are about 100 students in the high school music department.

WALTER BAILEY AND N. E. FUCHS

Walter Tetley of Essex, a negro, was fined \$15.00 and costs by Judge W. S. Smith, Thursday, on a charge of reckless and careless driving. Tetley was arrested Tuesday evening about 7 o'clock near the shoe factory, by Trooper Melvin Dace.

MRS. JAS. A. MOCAHEE, MRS. S. O. PHARRIS AND MRS. F. P. CROSS

Mrs. Jas. A. Mocahée, Mrs. S. O. Pharris and Mrs. F. P. Cross spent Tuesday as guests of Mr. and Mrs. J. P. Johnson at Delta.

JONES-MUNGER STATE-WIDE REPEALER LOSES IN SENATE

Jefferson City, May 12.—The state senate today defeated the Jones-Munger repealer by a vote of 14 to 16. The Jones-Munger law was passed in 1933, but has been termed unworkable by tax collecting officials. Still pending before the senate are two bills which would repeal the Jones-Munger law in St. Louis and Kansas City only.

LEGION AUXILIARY TO ENTERTAIN HUSBANDS

The regular meeting of the American Legion Auxiliary was held Monday evening at the home of Mrs. W. L. Huters with a fine attendance.

The Auxiliary voted to entertain their husbands at a Tenth Anniversary dinner at the Marshall Hotel Monday evening, May 31. The program committee is planning a very enjoyable evening, and it is the earnest wish of the president that all members will attend. The dinner will be served at 6:30 o'clock, and tickets will be seventy five cents each.

NEW PAROLE SYSTEM BILL PASSES MISSOURI HOUSE

Len Swain, manager of the Junior Chamber softball team, after a few days of strenuous workouts and several deals with near and distant leagues announces a line-up that he believes will prove invincible. Although no names have been officially announced it is rumored that his roster will include a Phantom Pitcher and a couple of female softballers that can really kick the ball around.

The Masked Marvel of the Mound and his cohorts will cavor for the edification of the general public on Friday night of this week when they meet the Legion boys in the final game of the evening.

CELEBRATES BIRTHDAY

In honor of her birth anniversary Madelyn Seiliani entertained the members of her Sunday school class, the Blue Birds, with a picture show party, Saturday afternoon. Refreshments were served at the H. & L. Drug store. Six guests enjoyed the occasion.

LAST ACT FEES PROGRAM HELD

The entire high school student body and most of the upper grades were highly entertained in the gymnasium Wednesday afternoon by Noah Beilharz, impersonator and make-up artist appearing as the last entertainment number on the student activity fee this year.

RUDELL DANIEL SUCCUMBS

Funeral services were held by Rev. E. H. O'rear, Wednesday at 3 o'clock at the Methodist Church for Rudell Flanery Daniel, whose death occurred Tuesday morning after an illness of seven weeks.

He was the son of Gideon Daniel, and was born November 15, 1912, in New Madrid county. He was reared and educated in Sikeston, having graduated from the High School in 1932. Because of failing health he spent some time in Denver, Colorado, and returned home with his condition much improved. He later served as night clerk at the Del-Rey and Marshall Hotels.

He was preceded in death by his mother on May 10, 1918.

Surviving him are his father and step-mother, Mr. and Mrs. Gideon Daniel; two step-brothers, Ben Sells, Jr., and John Sells; two step-sisters, Mrs. Wm. A. Schuetze, Cape Girardeau and Mrs. Chas. Moose of Sikeston; an uncle, Perry Daniel, Mexico, Ky.; two aunts, Mrs. Dave Gillan and Mrs. Eb Daniel, Marion, Ky.

Burial was in the Sikeston City Cemetery with Albritton Service.

SCIENCE AND PHYSICAL EDUCATOR SELECTED

At a meeting of the School Board Wednesday evening Fred Berger, of Bonne Terre, Mo., was selected to fill the position of Science and Physical Educator, vice Reid Jann, not an applicant for re-election. Mr. Berger will also be in charge of the new Chemistry Department which will be added next year.

Also U. S. Hunt was selected as principal of the colored school. Hunt was previously in our school but left last year to teach in Clarkdale, Miss., and was considered a fine teacher, especially in music.

ARRESTED BY DACE FOR RECKLESS DRIVING

The Sikeston Board of Education was entertained last Friday night at 6:30 by a three course dinner served at the high school by Miss Isabel Hess and the Home Economics Department.

Those present were: Mr. and Mrs. Lee Bowman, Mr. and Mrs. R. E. Bailey, Mr. and Mrs. Harry E. Dudley, Mr. and Mrs. W. H. Sikes, Mr. and Mrs. A. J. Renner, Mr. and Mrs. Tanner C. Dye, C. D. Matthews III and Mrs. E. C. Matthews.

On Thursday afternoon of this week from 2:30 until 3:30 the Home Economics Department served a tea for the entire high school music department and the faculty. There are about 100 students in the high school music department.

WALTER BAILEY AND N. E. FUCHS

Teachers Examinations Demanded for Tuberculosis

Every school board in Missouri should require teachers to have an examination for tuberculosis, including an X-ray picture, before permitting them to teach. This statement was made by the Missouri Tuberculosis Association today, and was based on a study of death rate figures by age and sex.

Deaths from the disease reach a peak between the ages of 20 and 24. Approximately twice as many young women die of tuberculosis between these years as young men.

Because children spent many hours a week in the school room where they are in close contact with their teachers, it is important to make sure that teachers are not infecting children with the disease. While a greater number of young adults die of tuberculosis, children are particularly susceptible to infection which may result in active disease later in life.

"Progressive school boards in many communities are taking steps to protect their children from tuberculosis infection by making sure that teachers are free of the disease. We strongly urge that every community take similar precautions," the association stated.

No examination for tuberculosis in adults should be considered complete unless a chest X-ray picture is taken. If the tuberculin test is used, all positive reactors should be X-rayed.

A number of cases of tuberculosis among school teachers have come to the attention of the Missouri Tuberculosis Association. Most of them were not discovered until the individual became too acutely ill to continue teaching and the children had already been infected. Studies have shown that the incidence of infection among the children in rooms where teachers have active cases of tuberculosis is nearly one hundred per cent.

FAT SOWS RAISE POOR LITTERS

A. W. Matson of Gideon and Fremont Goetz of Sikeston, co-operators on the "Swine Sanitation Project", were both disappointed in the number of pigs

farrowed and raised by their brood sows. Both men had their brood sows too fat at farrowing time. Best results are obtained when the sows are kept in good natural flesh and never allowed to go thin. A good brood sow who is a good milk producer will get thin when suckling a litter. This thin sow should not gain more than $\frac{1}{2}$ pound per day from the time the pigs are weaned until next farrowing time. Mr. Matson expects to wean the pigs and put his sows on a white clover and lespedeza pasture. The only supplementary feed the sows will get is about 3 ears of corn per day with a mineral mixture of bone meal, ammonium, and salt.

Mr. Goetz will place his sows on a blue grass pasture. Blue grass is high in mineral content, as well as protein. Therefore Mr. Goetz's sows will require very little extra mineral mixture and protein supplement. He also expects to feed very little corn.

The following results may be expected from the above described management:

1. The sows can stand the hot weather better.
2. The feed cost will be much less.
3. Larger litters with fewer pigs mashed at farrowing time.

Crimson Clover Proves Excellent Winter Pasture

Byrne Sherwood of New Madrid Community sowed thirteen acres of crimson clover last September, principally as a winter cover crop. As the clover came on and made a rather good growth, he decided to try pasturing it. The following are the results as reported to the Agent by Mr. Sherwood: "In early December,

I turned twelve sows and eighty-five young pigs into this crimson clover. Also five calves. These were allowed to remain practically every day throughout the winter. During the snow and ice in February, of course, no pasturing was done. About the last week of February I returned the above stock to the clover, and in addition sixty sheep and twenty-five cows and calves were added. The stock did well and so did the clover. These were pastured until April 17th. I believe this is going to prove to be one of our best winter cover crops and pastures for New Madrid County."

Mr. Sherwood plans to harvest a crop of seed from the clover. The clover and double will be turned under. He plans to seed thirty acres for seed purpose this fall and will probably seed most of his cotton middles to be turned under as a green manure crop next spring.

Another thing favorable to the crimson clover, according to Sherwood, is its nitrogen producing ability. He says that not only the main roots, but the feeder roots as well are loaded with nitrogen producing nodules.

The following results may be expected from the above described management:

1. The sows can stand the hot weather better.
2. The feed cost will be much less.
3. Larger litters with fewer pigs mashed at farrowing time.

BOOKS AND WHAT THEY SHOULD MEAN IN THE LIVES OF OUR CHILDREN

It is just as important to give children the right kind of books as it is to give them the right kind of food.

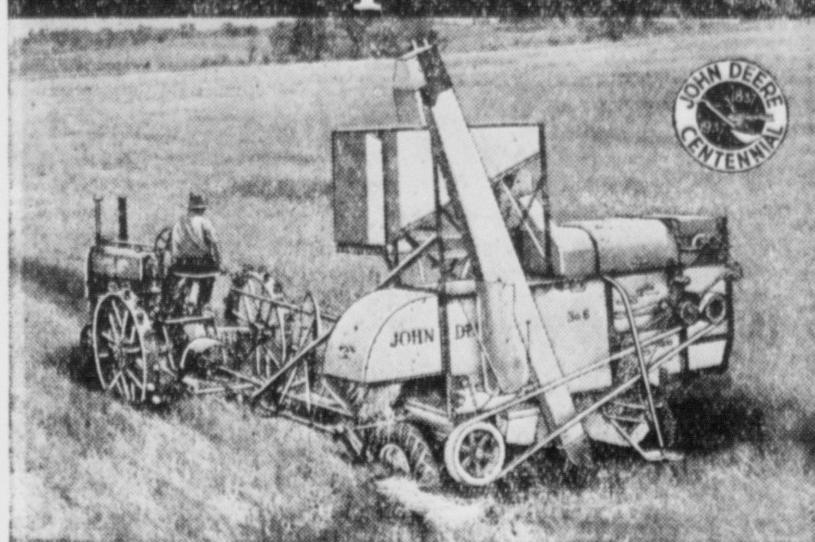

Childhood is the deciding point of life and children should learn how the best women and the best men have lived. They should find joy in the best stories, beauty in the best poems, splendid examples in the best histories and biographies. They should have access to good books.

In reading the biographies of great men and women one is always impressed with the fact that almost always they admit that their lives have been influenced by some one great book or several such books.

"Great books are the lifeblood of master spirits" said Milton and by their reading our children's lives may be inspired to great deeds and great thoughts.

"The mind grows by what it feeds on", says Shakespeare. There comes a flood tide in the lives of boys and girls, when they are especially amenable to influence that will make or mar their future life. From twelve to fourteen years the character begins to be definitely formed.

The meeting had just got underway, with the Rev. Mr. Blackstone addressing about 40 persons, when 10 or 12 men, whose identities were not learned, appeared and told the speaker and Tucker to "get out." One of the group hit Tucker, an elderly man knocking him down. The two

then were escorted to the bus station and they departed, presumably for Memphis.

Deputy Sheriff Tom Ward of Pemiscot County said today his office had not thought the matter of any consequence. "A few words were exchanged and maybe somebody got hit, but there have been no charges filed and we did not consider the incident worthy of investigation," said Ward.

Officers said they had learned the union organizers planned to return Thursday to continue their campaign to organize sharecroppers and tenant farmers. Tucker formerly resided in Caruthersville.

At Memphis, J. R. Butler, president of the union, sent a telegram to Gov. Stark charging the meeting was broken up by planters, their retainers and "armed thugs." He asked the Governor to "wire us what stand you intend to take."

At Jefferson City, Gov. Stark said that he was investigating the situation in Pemiscot County, and that "the Laws of Missouri will be upheld."

Butler in a statement said the County Judge and Sheriff had given permission for use of the Courthouse for the meeting, but charged that officers "conveniently absented themselves" when the speaking started. "The meeting was a protest against starvation wages being paid by the landowners of Southeast Missouri," Butler declared.

He: "I just heard of a girl who takes a shower and dresses in three minutes."

She: "Why, that isn't so wonderful!"

He: "I'd like to see you do it."

An old villager had been offered ten shillings if he would let an artist paint him. He hesitated awhile.

"It's easy money," prompted the artist.

"Sure, you're right," was the reply. "I was jes' wondering how I'd get the paint off afterwards."

Many Interested Attended
Canning Demonstration

Miss Cecilia Echart, of Amos, Iowa, conducted a canning demonstration in the New Madrid School Auditorium on Friday, May 7, at 2:00 p. m. Three methods of canning were discussed, the open kettle, the hot water bath and the pressure cooker, as we felt everyone knew the open kettle method and also as we do not recommend it, the canning was done in the pressure cookers and water bath. It was advised that pressure cooker be used for all meats and non-acid vegetables. The water bath can be successfully used for acid vegetables and fruit. However, if you have been using the water bath for non-acid vegetables and having good luck, and cannot get pressure cooker it is advised that you continue its use.

One pint each of meat, mustard greens, green beans, peas, tomatoes, and pineapple was canned, and the different steps in the process stressed. All products were hot packed except the meat. One point that was brought out emphatically was that your product is no better after it is canned than it was before so care should be taken in getting the very best material possible to can. "An Hour from the Garden to the Can" is the slogan.

Sixty-one women attended this meeting. The following committees were represented: Matthews, New Madrid, Fairview, Lilbourn, Risco, Parma, Tinsley, Portageville, Marston, Coman, Hartzell, Sikeston, and Caruthersville.

PULLMAN CO. SUED BY

Washington, May 10.—Representative Mitchell of Illinois, declaring that he was ejected from a Pullman car in Arkansas because he is a Negro, announced today he had filed a \$50,000 damage suit designed to end such "Jim Crow" segregation in that

We both know how important blue in home decorations will be this spring summer and fall! And it would be not only smart of us, but extremely chic, if we ensembled windows and woodwork with the shades. He was on his way from Chicago to Hot Springs, Ark., in the interest of his health. The incident, he contended, aggravated his illness.

Displaying a letter from Gov. Carl E. Bailey inviting him to call at the State Capitol while in Arkansas, Mitchell told reporters his visit to Arkansas was "fine" except for the Pullman car affair.

The Congressman said a train conductor, calling him "vile names," ordered him to leave the Pullman April 21 near Forest City, Ark., and enter a car reserved for Negroes.

He was on his way from Chicago to Hot Springs, Ark., in the interest of his health. The incident, he contended, aggravated his illness.

Displaying a letter from Gov. Carl E. Bailey inviting him to call at the State Capitol while in Arkansas, Mitchell told reporters his visit to Arkansas was "fine" except for the Pullman car affair.

What is the "Low-price Field"?

YOU hear a lot about "the low-price field" these days. A good many cars claim to be in it. So whenever the low-price field is mentioned, remember:

Until Ford came, no average American could own a car.

Today all Ford prices are still low—with the prices of the 60-horsepower Ford V-8 \$30 to \$60 lower than those of any other car of comparable size.

But with Ford, "low price" doesn't merely mean low figures on the price tag. It means much more than that. It means low prices and low costs all the car's long life. Low prices for service—for parts—and, above all, for operation.

Both Ford V-8 engine sizes are economical to operate. The 85 horsepower gives greater gasoline mileage this year than ever, and the "60" delivers the highest mileage in Ford history.

Private owners, cab companies, fleet operators all report that the "60" averages from 22 to 27 miles per gallon of gasoline.

Check and see how much Ford saves you.

Sometimes it seems to us it is the idea of some merchants, when they arrange to do a bit of advertising, to first mark up the goods advertised and then marked them down part way again, leaving the "special" price sufficiently above the first or regular price to make the margin defray the cost of their ads. Mind you, we do not say this ever is done, but it has seemed to us on occasion in

On KFVS daily except Sunday—10:15 a.m.
Good music—with conversation.

ROOM COOLERS STEPPING OUT

FRIGIDAIRE ROOM COOLERS are selling—and they're selling because they are the most practical cooler on the market—do their work without trouble and with General Motors money behind them every customer is safe and secure. Our mechanic is ready to install this amazing new comfort equipment promptly in any home. Please understand we carry the staple models in stock just as we do Frigidaires. Call and be shown.

REFRIGERATION HEADQUARTERS

With good old reliable FRIGIDAIRE heading the list—followed by the new SUPERFEX COAL OIL REFRIGERATOR for farm homes—all backed up by an excellent lot of used electrics and ice refrigerators, this store seems to be the answer in this section to refrigerator requirements. Along with above items we have two bottle beverage coolers in fine condition which are offered at bargain figures. Time payments are available on any of them.

"DILAPIDOSIS" an EPIDEMIC

"Dilapidossi" is a new ailment, which afflicts homes rather than human beings, although it does have some effect on the well being of people.

There's been a serious epidemic of homesickness—not fatal, fortunately, but leaving in its wake countless anemic under-nourished homes; scars and bruises here and there, but happily nothing that cannot be pleasantly restored by the wise use of a little healing money.

Everywhere you see evidences of ravages of this pestilence—perhaps right in your home:

—battered, down-at-heels tables and chairs;

—upholstery with open wounds;

—thin, weary-looking rugs and linoleum;

—stained, antiquated kitchen furniture.

Don't allow these symptoms to continue. Cure them.

You'll do well to take these three steps:

1. Give your home a thorough frank physical examination.

2. Decide what you can afford to do.

3. Come in and get our prescription.

NEW ADDITION

Mr. Clarence Onyett, for fourteen years, warehouse manager and linoleum supervisor with Fair Furniture Co., of Cairo, Ill., is now in our employ giving his main attention to selling, cementing and taking care of linoleum stock. No job is too big or too small for this department. Buyers who want special border or insert work done with inlaid may give their orders in full confidence the work will be well executed.

NEW MADRID COUNTY SCHOOL NEWS

By Milus R. Davis
Hugh May, Principal of Matthews High School, has been elected at East Prairie for the coming term, which leaves this position vacant. Superintendent J. W. Hackstep also reports that they may add another grade teacher. The entire faculty was re-elected.

The Canalou faculty was re-employed, except Marshall Jackson who took a position at Bridges and Leraun Weeks Baugh who will teach at Charter Oak. The new grade teachers elected were: Helen Duckett of Advance, Marguerite Wells of Cape Girardeau, and Frances Conrad of Lutesville. An extra grade teacher was added this year.

Her Father: "I do hope you appreciate that in marrying my daughter you are getting a very big-hearted and generous girl."

Seaman: "I do, sir. And I hope that she has acquired those fine qualities from her father."

The Conran faculty was re-elected, except two. An extra

grade teacher was also added, and the three new teachers are: Raymond R. Hoggard of Conran, Estelle Bess of Portageville, and Inez Latimer of Marston.

At Keweenaw, all except two

were hired again. Keweenaw now has a high school teacher for English and Music to succeed Omo Koepel who resigned, and one grade teacher.

The Parma faculty was re-elected, except one, but some have changed to new positions. They now have vacancies for a high school teacher of Music and English, and for three grade teachers.

The Risco faculty was elected again, but John Spitzmiller resigned, which leaves a vacancy for a high school teacher of Commercial Subjects and English. Superintendent Oren S. Liley also reports that they plan to add some more grade teachers.

All of the Portageville teachers were re-elected, but Don Dritchard, who teaches General Science and Biology and coaches athletics, has resigned to go to Mehlevo in St. Louis County, which leaves a vacancy. Superintendent L. G. Wilson also reports that they need a Music teacher, which will be an addition to the high school faculty.

The entire faculty was employed again at New Madrid, but they had two resignations. Otto Seabaugh, teacher of Industrial Arts, took a similar position in Cape Girardeau, and was succeeded by Albert Best from Cape Girardeau. Richard V. Beall resigned as principal of the grades to go into business at Malden and was succeeded by John M. Hobbs of Parma.

Surviving Mrs. Kelly are her husband, five sons, J. M. Kelly, Vernon Kelly, and Theodore Kelly, all of Sikeston; John Kelly, Seattle, Wash.; Robert Kelly, Detroit, Mich., and seven grandchildren.

The Marston faculty was hired back, but Superintendent D. S. Revelle reports that they plan to add one new high school teacher and one extra grade teacher.

All Libourn teachers were re-hired except one grade teacher. A Mr. Brewer is the new grade teacher. And if they get the new building, they plan to add more grade teachers.

The faculty at Morehouse was re-employed except one. The new Commercial teacher is Imogene Holly of Illinois.

Next year, Gideon will have 12 high school teachers, 23 grade teachers, and one colored teacher. This is an increase in both grades and high school. Practically all of the teachers were retained. Eldridge P. Crow resigned as principal of the Junior High School to take a position in Malden. New grade teachers are

Ethel Oelger and Edna Book. Superintendent L. B. Hoy reports five grade positions open and two high school positions. They need a man for Industrial Arts and a lady for Home Economics. These two new high school departments are being added this year. Chas. A. Lee will deliver their high school graduation address on May 20.

While many accidents do occur, of course, on hills and curves, a great many others occur on wide, straight, smooth highways.

It's all very well to increase your alertness when the road is full of twists, turns, and hills. Never let yourself take it too easy at any time while driving an automobile.

THE McMULLIN SCHOOL VISITS THE STANDARD

Tuesday afternoon Professor Ernest Alsip, teacher of the 3rd, 4th, 5th and 6th grades in the McMullin School honored The Standard office with a visit from these grades and it was the editor's pleasure to show them through the office and explain the workings of the machinery. Those in the party were:

Laudea Altom, Ozill Clark,

Lucille Clark, Eunice Alsip, Lois Mae Troxell, John Butrun, W. E. Cline, Imogene Clark, Mildred Jean Altom, Alfred Kinsey and Doris Troxell.

After the visit it was our further pleasure to treat the party to ice cream.

Bride: "Why do you always want me to pull your ears when I kiss you?"

Groom: "So I can tell where your hands are. I lost my wallet four times the other way."

Chife: "I saw you at the telephone on the dock last night, and you didn't say a word for ten minutes."

Ditto: "Yes, I was talking to my wife."

He: "I saw a man swallow a sword."

She: "That's nothing, I saw a girl inhale a Camel."

For young or old—
it's a BROWNIE

For youngsters making their first snapshots, grown-ups who want their picture taken simple, a Brownie is the answer. They're priced from \$1 here.

"I was out with a nurse last night," bragged the not dry behind the ears recruit.

"That's nice," yawned the girl.

"You need one."

COTTON SEED FOR REPLANTING

I have some 719 Delfos 1 year from breeder developed and improved by Stoneville, the past ten years.

Have tried all the leading strains the past 20 years and have found "719" to be the Earliest, Biggest Boll, Heaviest Yield and brings the most money of all cottons. It is 1 1/4 inch staple and sells \$7.50 to \$10.00 per bale more than short cotton. Had lint turnout 34 to 36 per cent.

Also have some 11 A "D. P. L." direct from breeder, \$135.00 per ton.

BIG MOMENT

HERE COMES A TIME in every woman's life when ordinary provider won't do. When she has to produce something pretty special—or else. Not long ago we came along up against one of those emergencies and met it face to face with a new Apricot and Apple Sauce Cake. How'd you like to try our recipe next time you need to do something spectacular? It's simple. Just cream together 1/2 cupful butter, add a cupful of sugar and cream the two together well. Then add an egg and beat the mixture for all you're worth. For a really elegant flavor, blend 2 cans of Strained Apricots and Apple Sauce (lifted from the baby's larder) with 1/4 teaspoonful soda and add to the other good things in the mixing bowl. As a separate process, sift together three times 2 cupfuls sifted cake flour, 1/2 teaspoonful salt and 2 teaspoonsful baking powder. Add this to the butter mixture alternately with 1/4 cupful of milk. Pour into a greased loaf pan (7 x 10") and bake in a moderate oven (350° F.) 30 or 40 minutes. Cool. Cut into squares and top off with larrupps of slightly sweetened whipped cream. It's the quintessence of spring!

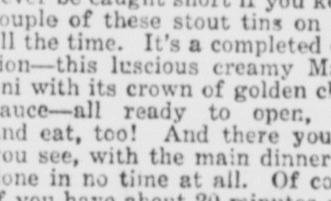

BRISK BEGINNING

It's no trouble at all to provide canapés for the crowd when you have a recipe on tap that can be tossed off as quickly as this hot pickle and cheese combination: To begin, slice bread about 3/4 inch thick and cut a large round from each slice with a medium size cookie cutter. Toast all the rounds briefly on one side, then place crisp green slices of Fresh Cucumber Pickle in the center of each untoasted side. Blanket the Pickles with thin slices of American cheese cut by the same cookie cutter. Pop into a moderate oven (350° F.) until cheese melts. Then spread with paprika and serve hot. You can make quite a platterful at a time. Enough to hold all your famished guests until the meal gets under way.

INTERLUDE

Here's a titillant tidbit to tuck between courses—Celery Stuffed with Cream Cheese and Horseradish: Blend 1/2 lb. cream cheese with 2 teaspoonsful Evaporated Horseradish soaked for 10 minutes in 3 teaspoonsful cold water. Add a third of a cupful of sliced Stuffed Spanish Olives for a bright bit of color and use as filling for firm inner stalks of celery. Chill for a spell before serving.

LAST MINUTE LOGIC

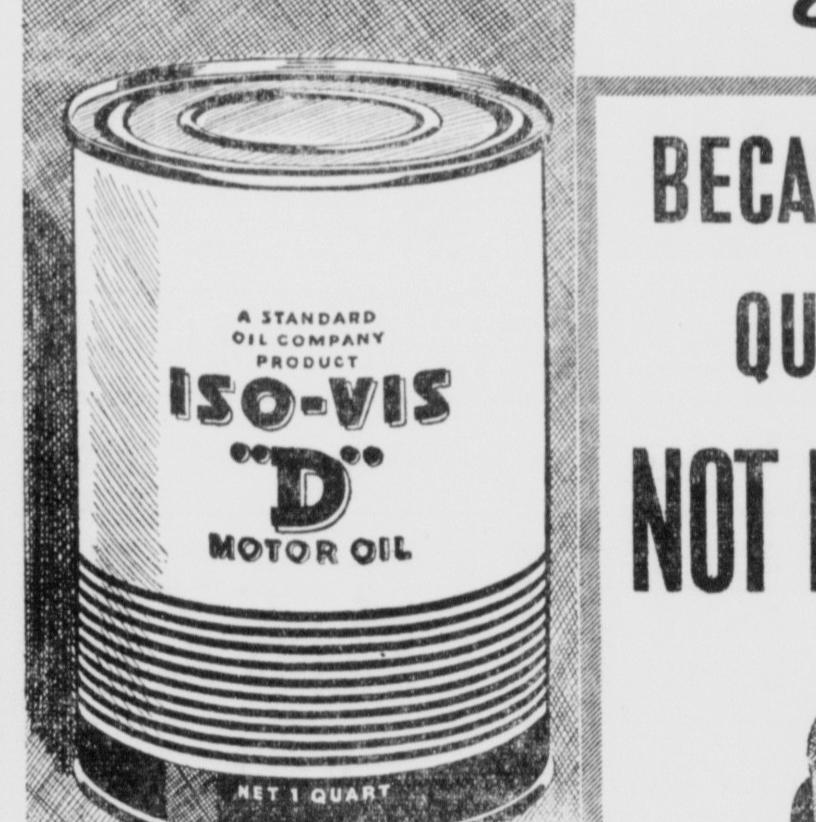

On busy days when dinner time sneaks on you unawares, snag a can of Cooked Macaroni from the pantry shelf and save the situation with a quick concoction. You'll never be caught short if you keep a couple of these stout tins on hand all the time. It's a completed creation—this luscious creamy Macaroni with its crown of golden cheese sauce—all ready to open, heat and eat, too! And there you are, you see, with the main dinner dish done in no time at all. Of course, if you have about 20 minutes grace you could combine a canful with some hard boiled eggs and turn

Monotony produces fatigue. Statistics show that some of our most serious accidents—in fact, the largest percentage of them—are caused by drivers smashing up on straight roads.

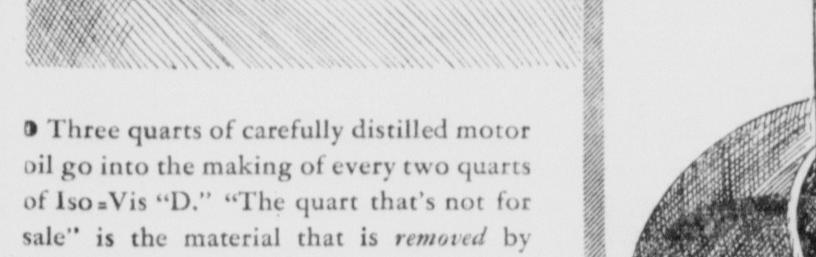

Possibly the solution is to have possibly the solution is to have well-marked, so that the attention of the driver will be on his driving at all times.
